Kenneth Brown. Coffee then spread to the Balkans, Italy, and to the rest of Europe, as well as Southeast Asia and then to America, [2] despite bans imposed during the 15th century by religious leaders in Mecca and Cairo, and later by the Catholic Church.

The proponents argue that Fair Trade helps the farmer receive a larger salary. And as a form of marketing, the tea was often gifted to British factory owners in the subcontinent. Approximately one third of the coffee produced in the world is robusta. Renowned and eminent physicians often recommended coffee for medicinal purposes and some prescribed it as a cure for nervous disorders.

Here, designers have created the feeling of a verdant urban oasis with live plants. This style was first introduced by the Dutch during colonization in the late 17th century.
