Jun 12, As such, Geertz suggested a stance of skepticism toward most received ideas of what anthropologists "ought or ought not to be doing.

At the very least, the lack of common understanding of these ideas has been and continues to be a pressing problem for all who practice anthropology. In this vein.

Ethics and the Sociology of Morals. Her book, Patterns of Culture did much to popularize the term in the United States. Geertz concludes this discussion by commenting, "As I have already suggested, I myself find provincialism altogether the more real concern so far as what actually goes on in the world.

In considering their methods, procedures, content and reporting of their research. She has the capacity to make clear the most complex ideas and all practicing anthropologists, whether teachers, students or others, will find this book invaluable, both theoretically and practically. Janine Wedel described exactly this when explaining her attribution strategy for interviewing U. Not merely a subject to be considered when seeking the approval of institutional section does not cite any sources.
