Not a fan of the author's style, which can sometimes veer off point and even become self-indulgent: too much personal, tangential information that has no real bearing on the topic I could not care less about his so-called fugginVolvo and the too frequent, almost diarrheal ruminations. But absolute silence eluded him: underwater in his bathtub the roaring metropolis was amplified by the denser medium of water; in Paris's catacombs a distant hum persisted among the stacked skulls and bones; and in his family home on Cape Cod the absence of excessive sound, rather than soothing him, made him conscious of the absence of his recently deceased mother.
