Any decent Chinese-English dictionary will list characters in pinyin-order, meaning that characters that are pronounced the same end up next to each. In general words consist of characters e. Other Entries - other definitions for this character that are not included in this screen under DICT - this mainly means alternate pronunciations which are grouped under separate dictionary entries in search results. So the only key is practice, practice and practice. Thanks more about this word. Pinyin transcribes the Chinese characters so people can pronounce it. This is the same character lookup method employed in most printed Chinese dictionaries. This phrase uses these second then the third tone. Sign in to use this feature. The easiest way to simplify is to miss out one or two strokes from the old form but retain the recognizable layout of the original. There are 4 different tones: These tones are added

in small symbols on top of the relevant vowels.
