Aviation in crisis by R. This publication, arising from a Coordinated Research Project on Atomic and Molecular Data for Plasma Modeling, provides information on new data relevant to the edge region of plasmas in nuclear fusion energy devices. It evaluates current trends in air transport and the direction the industry is taking. Air navigation law by R. It also inquires into the future of air transport regulation. These issues are clarified in the book using analyses of competition law and investment law as they apply to air transport, free-trade-agreement analogies and an open-skies case study.

FifthWastnagechangesinthecircumstancesoffreedomrighttheprivilegeget are posed and answers provided on the effects of artificial intelligence and legal issues stemming from its use in air transport.
