The benefit is that you can use the same template for your desktop site just by swapping out the jQuery Mobile scripts and styles for your. You will need these later. If you have this available, this is easy.

When will my order be ready to collect? Data Visualization. If you want to be a good responsive web designer, you must cover a wide spectrum of devices and desktop machines. As a 'cookbook' it does offer some good script examples and all the examples I tried worked. This is usually the preferable method when you are confident that the clients have the bandwidth to download the image without causing the page to load slowly.

Natural Language Processing. The Bootstrap framework uses a `div` element with `text-align: justify` to make the text look like a block.
